Mentoring Policy

Preamble:

Foresight College of Commerce is committed to create and maintain an environment of excellence in education through technological advancements, effective pedagogy and methods of evaluation and enabling students to access support systems to meet their academic needs. Mentoring is a strategy to provide students with emotional and instrumental support they need to achieve learning goals in the context of higher education in educational institutes, mentoring can be understood as "Teacher to student". It sets up a healthy relationship between the students and the faculty.

Mentoring provides a reliable and comprehensive support system, to motivate students to excel in both academic and non-academic fields and to make the most of their life at the college and ensures that the students adapt to the dynamic learning environment and lead their ways into highly successful careers.

Objective:

To provide opportunity to the students for sharing their problems related to academic and non-academic matters so that help to students can be arranged.

To assist the students in academic progress as well as healthy and positive life.

To identify the slow learners, advanced learners and the average students and to provide a suitable environment to grow and prosper.

To provide guidance and assistance to the student to seize the opportunity for their growth and development.

Develop communication, study and personal skills.

Principal
Foresight College of Commerce
Pune

Procedure for Mentoring:

1. Orientation of the mentors:

Prior to the commencement of the academic semester, each faculty member is to be oriented and sensitized regarding the importance and objective of the mentoring process. The senior faculty member of the institute/ department may coordinate and act as a resource person to understand the do's and don'ts of the mentoring process.

2. Assigning students to the Mentors

The Head of the institute will appoint a senior faculty member as Faculty coordinator for the mentoring process. The concerned Coordinators will assign a group of 30 to 40 students to an individual faculty member.

3. Round of mentoring

The main purpose of this mentoring session is to monitor academic performance of the students, to review the attendance, to review the progress in the subjects, etc. The mentor will also observe the improvements in the students from the first semester up to final semester. The mentor will maintain a separate file for all the students assigned to him/her.

However, for the special cases, where continuous monitoring and follow-ups are required, a series of mentoring sessions can be arranged.

4. Analysis and assessment of mentees:

All the mentoring reports are submitted to the concerned HoD/faculty coordinators. The HoD/faculty coordinators will take necessary actions, wherever required and may inform the head of institute.

5. Review and revision of policy:

The mentoring policy will be reviewed after a period of one year. The institute Coordinator of the mentoring policy will present the mentoring report in the IQAC meeting of the institute. Subsequently, the suggestions will be placed before the IQAC team and if required, the policy/process will be revised.

The above policy is of general nature and it can be modified according to the needs and requirements of the concerned Institute.
