Chair or the Organising Committee, we would like to invite you and your colleagues to participate in the National Seminar in Pune, which will bring together many distinguished personalities from different parts of India. Please go through the following details about this as given below.

Introduction

India is a multi-lingual and a multi-religious country. Indian society is pluralistic in character from the religious and other points of view. Since a very long time people belonging to various religious communities have been living together in this country. The concept of 'minority' in India has not been properly defined anywhere in the Indian Constitution. But 'minority status' has been conferred on many groups.

- I. According to the Article 29 of the Constitution, any group living within the jurisdiction of India is entitled to preserve and promote its own language, script or literature, and culture.
- II. Article 30 states that a minority group "whether based on religion or language shall have the right to establish and administer educational institution of their choice."

Problems of Religious Minorities Racial, religious, ethnic, linguistic and other minorities are subject to some or the other problems everywhere.

Report

IQAC & Placement Cell in Collaboration with LightHouse Community's Foundation conducted a 12 days soft skill programme.

Foresight College of Commerce in collaboration with LightHouse Community Foundation conducted a 12 days Soft Skills Programme for the students of BBA / BBA-CA / BCOM and BBA-IB in college campus.

It is a very popular term nowadays, used to indicate personal transversal competences such as social aptitudes, language and communication capability, friendliness and ability of working in a team and other personality traits that characterize relationships.

between people. Soft Skills are traditionally considered complementary to Hard Skills, which are the abilities to perform a certain type of task or activity. Soft Skills are strategic to be successful in personal and professional life and are essential for the students when they try to obtain any kind of job.

Enterprises generally hire new employees, in particular recent graduates, taking more in consideration their Soft Skills than their Hard Skills. This happens also for technical professions, because the company, in order to be competitive, needs to create good and effective teams and a collaborative working atmosphere. The departments of the college have organized various types of activities to develop the soft skills of the students enrolled with the institution. These activities of the departments and platforms available helped the learners to learn and acquire soft skills like Communication Skills, Presentation Skills, Written Communication, Interpersonal Skills, Creativity and Leadership etc. In order to improve the communicative abilities of the students they want to Communicate More Effectively. Use Intentional Techniques to Build Stronger Relationships—Personal and Professional. ...The College Magazine to enhance the written communication of the students play a significant role. The students are given in depth lessons by organizing workshops, state level elocution competition, interfaculty debates and group discussions and expert talks of the quality speakers and the trainers throughout the academic year. These activities benefit the students to enhance the knowledge of use of language and its spoken aspect. It helped the students for their development of communication skills. To improve the Presentation Skills the departments conducted seminars for the students. The students get to participate and perform an active role in the Seminars. Topics are given to them to prepare and present to assess their performance. Every year the departments make the organization of such Seminars a regular feature of the campus. The IQAC department conducts this kind of programme which helps the

students to learn the presentation skills and enhances the creative capabilities among them. The Group Discussion is the routine practice of the campus may it be the part of the curriculum or not. They learn the art of argument which helps them in practical life ahead and thus develop interpersonal skills among themselves.

Sub: Air Quality Education and AQI Awareness Programme for Schools and Colleges in Pune

Dear Madam/Sir,

As you may know, Centre for Environment Education (CEE) was established in 1984 as a Centre of Excellence of the Ministry of Environment and Forests, Government of India. As a national institute, CEE's mandate is to promote environmental awareness nationwide. CEE develops innovative programmes and educational material and builds capacity in the field of Education for Sustainable Development (ESD).

CEE in collaboration with Pune Municipal Corporation, Indian Institute of Tropical Meteorology Pune, Natural Resources Defence Council US, and Albina Foundation Pune has developed the air quality education and AQI awareness programme for schools and colleges in Pune. The programme aims to raise awareness about Air Quality Index (AQI) and educate school and college students about air quality management linking it with the curriculum.

In order to reach out to children and youth, CEE has prepared an air quality education kit including AQI flags, posters and EE activities for school and college students. The environmental educators are trained to orient teachers and conduct interactive sessions with students.

Through this programme, CEE is reaching out to 250 schools and 50 colleges in Pune to undertake following activities:

1. Enrol schools and colleges for air quality education and AQI awareness programme,
2. Orient teachers, demonstrate, and install AQI apps (Samner/Safar-air),
3. Provide AQ education kit including AQI posters and flags, set up air quality wall,
4. Conduct EE activity and games with students, and
5. Give information about online session for teachers on air quality education.

In this regard, we request for your permission to conducting orientation of 1-2 teacher/s nominated by you and an education session with students of one of the classes or Eco Club members at your institution. We would also like to have your feedback and information collected by the educators.

We thank you for your support and time and looking forward for future association with your esteemed institution on the topics of EE and ESD.

Yours sincerely,

Dr. Sanskriti Menon
